"You are giving him the confidence in reading to help him to achieve his dreams for his future career and life choices with his ability to understand what he is reading and writing, which he didn't have before."

"You are truly miracle workers sent by God to help parents who know there is something better than the special education the public school offers. I get as much, if not more encouragement/ instruction than my son does and am confident that this program is the right choice for our family. The support we get from you is awesome and priceless."

### **Mother of 2<sup>nd</sup> grader:**

"Both attitude and self-esteem have improved. He has been more thoughtful, interested in going on long bike rides when before, we couldn't get him to ride in our yard. His teacher called and said he has been so much better behaviorally. He's much more easy going and proud of his accomplishments."
